

INDEX TO VOLUME 93

A

- AABY, GENE V.** See **EDGETT, JOSEPH W., Jr.**
AALKIUS, TRYGVE, HOFSLI, MIKAL, and VESTAD, EINAR:
 Angiography in acute pancreatitis (ab), 93: 1397, 1969
AASE, JON M., and SMITH, DAVID W.: Congenital anemia and triphalangeal thumbs: new syndrome (ab), 93: 1403, 1969
ABBASSIOUN, KAZEM. See **MCQUEEN, J. DONALD**
ABBOT, OSLER A. See **SYMBAS, PANAGIOTIS N.**
ABDOMEN

See also Abdominal Angiography; Ascites; Emphysema, retroperitoneal; Pregnancy; Urography; and under individual organs, as Adrenals; Intestines; Venae Cavae; etc.

cancer
 —gastrointestinal function after abdominal cobalt irradiation (ab), E. Ratzkowski and A. Hochman, 93: 745, 1969

fibrosis
 —arteriographic diagnosis of primary and secondary tumors of ureter or ureter and renal pelvis, Erich K. Lang, 93: 799, 1969

—lymphography in sarcoidosis: comparison with roentgen findings in chest: report of 15 cases, M. Akisada, A. Tasaka, and R. Mikami, 93: 1273, 1969

—methysergide, retroperitoneal fibrosis and rectosigmoid stricture (ab), Gerald J. Gelford and David K. Cromwell, 93: 489, 1969

—symptomatology and diagnosis of retroperitoneal fibrosis: review and presentation of case reports (ab), D. A. Packham and J. G. Yates-Bell, 93: 1226, 1969

—unusual manifestation of idiopathic retroperitoneal fibrosis, John M. Warkentin, 93: 1313, 1969

pain
 —significance of isolated upper pole calyceal dilatation (ab), E. Rusiewicz and B. J. Reilly, 93: 736, 1969

radioisotope studies
 —renal concentration of ¹³¹I-rose bengal confusing interpretation of abdominal scans in liver disease (ab), Leonard M. Freeman et al, 93: 494, 1969

roentgenography
 —retroperitoneal gas study in assessment of neoplastic and constricting lesions involving ureter, Erich K. Lang, 93: 99, 1969

tumors
 —B-scan ultrasonography of abdominal mass lesions, William N. Cohen, 93: 589, 1969

—concomitant aortography and inferior vena cavography in patients with abdominal masses (ab), John F. O'Halloran, Jr., and Paul C. Kahn, 93: 1401, 1969

—echographic diagnosis of retroperitoneal lymph node enlargement: ultrasound scanning technic and diagnostic findings (ab), W. Michael Asher and Atis K. Freimanis, 93: 1222, 1969

—hepatic oil embolization following lymphangiography in child with neuroblastoma (ab), Harvey Hecht et al, 93: 728, 1969

—left testicular vein varices simulating retroperitoneal lymph-node enlargement: case report, A. J. Gerlock, 93: 873, 1969

—malignant mesenchymoma of retroperitoneum (ab), Arthur M. Smith and Joshua A. Becker, 93: 235, 1969

—place of selective arteriography in identification of tumors of digestive organs (ab), J.-M. Bert et al, 93: 1401, 1969

—place of thermography in exploration of abdominal tumors (ab), Ch. M. Gros et al, 93: 1402, 1969

—pseudoxanthoma elasticum: angiographic manifestations in abdominal vessels, John L. Bardsley and P. Ruben Koehler, 93: 559, 1969

—radionuclear (^{99m}Tc) identification of tumor in children with neuroblastoma, G. J. D'Angio, M. Loken, and M. Nesbit, 93: 615, 1969

—statistical and diagnostic reflections on 114 observations of abdominal tumors in infants during 20-year period (ab), N. Neimann et al, 93: 1402, 1969

—unusual radiologic features of pheochromocytoma (ab), Morton A. Meyers and Max C. King, 93: 983, 1969

wounds and injuries
 —angiography in abdominal trauma (ab), Helen C. Redman et al, 93: 974, 1969

—experimental visceral arteriography in blunt abdominal trauma (ab), Melvyn H. Schreiber et al, 93: 727, 1969

ABDOMINAL ANGIOGRAPHY
 See also Liver, cancer; Liver, tumors; Pancreas, diseases; Pancreatitis

—aneurysm of splenic artery (ab), Erik Boijesen and H.-O. Efsing, 93: 966, 1969

—angiographic diagnosis of benign adrenal adenoma (ab), J. G. McNulty et al, 93: 240, 1969

—angiographic evaluation of pancreatic carcinoma, Joseph J. Bookstein, Stewart R. Reuter, and William Martel, 93: 757, 1969

—angiography in abdominal trauma (ab), Helen C. Redman et al, 93: 974, 1969

—arteriographic localization of suprahepatic abscesses, J. Bruce Jacobs, William G. Hammond, and John L. Dopman, 93: 1299, 1969

—arteriography in diagnosis of liver tumors (ab), R. F. Colapinto, 93: 971, 1969

—celiac and superior mesenteric arteries: correlation of angiograms and dissections, Robert A. Nebesar et al, 93: 380, 1969

—celiac pancreatography: preliminary report, Robert L. Waldron, II, Hind Teixidor, and Kevin L. Macken, 93: 932, 1969

—demonstration of insulin and gastrin producing pancreatic tumor by angiography and pancreatic scanning (ab), Raymond L. Thomas et al, 93: 497, 1969

—differentiation of intrahepatic and extrahepatic masses by arteriography, Plinio Rossi and Francis F. Ruzicka, Jr., 93: 771, 1969

—experimental visceral arteriography in blunt abdominal trauma (ab), Melvyn H. Schreiber et al, 93: 727, 1969

—frequency of demonstration of adrenals in abdominal survey arteriogram (ab), J. Balau and H.-J. Maurer, 93: 1406, 1969

—ilio-iliac arteriovenous fistula following laminectomy (ab), J. M. C. Davies, 93: 967, 1969

—place of selective arteriography in identification of tumors of digestive organs (ab), J.-M. Bert et al, 93: 1401, 1969

—preoperative angiographic diagnosis of bleeding aneurysms of abdominal visceral arteries, Erik Boijesen, Jan Göthlin, Torgil Hallböök, and Philip Sandblom, 93: 781, 1969

—pseudoxanthoma elasticum: angiographic manifestations in abdominal vessels, John L. Bardsley and P. Ruben Koehler, 93: 559, 1969

—renolumbar anastomosis in direct retroperitoneal venogram and selective azygogram (ab), E. Bucheler et al, 93: 967, 1969

—severe gastrointestinal hemorrhage: hemangiomata demonstrated by selective visceral arteriography (ab), E. C. Ashby et al, 93: 729, 1969

—value of selective angiography in diagnosis of tumors in pancreas and liver, Mariquita Fredens, Mogens Egeblad, and Fleming Holst-Nielsen, 93: 765, 1969

technic
 —angiographic localization of insulinomas: high reported success rate and 2 additional cases (ab), Heywood Y. Epstein et al, 93: 1397, 1969

—diagnosis of traumatic laceration of spleen by selective arteriography, direct serial magnification angiography, and intra-arterial epinephrine, Harry L. Stein, 93: 367, 1969

—enlarged technic of contracurrent arteriography (ab), J. Broussin and P. L. Martin, 93: 478, 1969

—improvement of superior mesenteric and portal vein visualization with tolazoline (ab), Helen C. Redman et al, 93: 965, 1969

—use of glucagon as vasodilator in visceral angiography, Richard O. Danford and Alan J. Davidson, 93: 173, 1969

ABLAZA, SARIEL G. G. See **YANG, SING SAN**
ABNORMALITIES AND DEFORMITIES
 See also Dwarfism; Mongolism; under organs and regions, as Hand; Heart; etc.

—diagnostic irradiation, congenital malformations and spontaneous abortion (ab), L. J. Kinlen and E. D. Acheson, 93: 247, 1969

—Prader-Labhart-Willi syndrome: review of literature and report of 9 cases (ab), Henry G. Dunn, 93: 983, 1969

ABORTION
 —diagnostic irradiation, congenital malformations and spontaneous abortion (ab), L. J. Kinlen and E. D. Acheson, 93: 247, 1969

ABRAMS, RAYMOND M. See **EPSTEIN, HEYWOOD Y.**
ABSCESSES

See also under organs and regions
 subdiaphragmatic. See Abscess, subphrenic
 subphrenic

—arteriographic localization of suprahepatic abscesses, J. Bruce Jacobs, William G. Hammond, and John L. Dopman, 93: 1299, 1969

—chest roentgen findings of subdiaphragmatic abscess with antibiotic therapy (ab), Thomas H. Johnson, Jr., 93: 471, 1969

—differentiation of intrahepatic and extrahepatic masses by arteriography, Plinio Rossi and Francis F. Ruzicka, Jr., 93: 771, 1969

—pleuropulmonary manifestations of subphrenic abscess: report of 40 observations (ab), J. Chebat et al, 93: 714, 1969

suprahepatic. See Abscess, subphrenic
ABSCOPAL EFFECT. See Tumors, lymphoma
ACCESS TO REPORTS. See Reports

ACCHIARDO, SERGIO. See **EGLESTON, THOMAS A.**
ACCIDENTS

—roentgenographic findings in extracardiac injury secondary to blunt chest automobile trauma (ab), T. A. Freed et al, 93: 228, 1969

- ACCIDENTS—cont.**
 automobile
 —tomographic evaluation of trauma to temporal bone, Leon G. Kaseff, 93: 321, 1969
- ACETYLCHOLINE**
 —effect of intra-arterial acetylcholine on renal arteriography in normal humans (ab), T. A. Freed et al, 93: 230, 1969
- ACHESON, E. D.** See KINLEN, L. J.
- ACHILLES TENDON.** See Calcaneum; Tendons
- ACHONDROPLASIA**
 —dysplasia epiphysealis multiplex (ab), M. V. K. Shetty and M. G. Varadarajan, 93: 1228, 1969
 —metaphyseal dysostosis of Jansen, M. B. Ozonoff, 93: 1047, 1969
- ACKERMANN, L., KALITZSCH, I., and KELLER, R.** Is infusion cholangio-cholecystography of greater value than conventional studies? (ab), 93: 481, 1969
- ACROMEGALY**
 —enlarged sella and intrasellar cistern, Leslie M. Zatz, Edward A. Jaron, and Thomas H. Newton, 93: 1085, 1969
 —stereotactic treatment of acromegaly (ab), Louis W. Conway et al, 93: 1238, 1969
- ACTINOMYCIN D**
 —treatment of Wilms' tumor with special reference to actinomycin D (ab), J. Stone and I. G. Williams, 93: 987, 1969
- ACTINOMYCOSIS**
 —dental and intracranial actinomycosis (ab), G. W. Stevenson and H. H. Gossman, 93: 713, 1969
- ADACHI, MASAZUMI, and VOLK, BRUNO W.** Protracted form of spongy degeneration of the central nervous system (van Bogaert and Bertrand type) (ab), 93: 469, 1969
- ADAMS, DONALD.** See RAND, ROBERT W.
- ADAMS, GERALD E.** given Radiation Research Society award, 93: 453, 1969
- ADAMS, JOHN E.** See CHOW, ROBERT W. B.
- ADAMS, PETER, DAVIES, G. T., and SWEETNAM, P. M.** Observer error and measurements of metacarpal (ab), 93: 1403, 1969
- ADENOMA.** See under organs and regions, as Adrenals, tumors; Bronchi, tumors
- ADHESIONS**
 —roentgenologic criteria of pericholecystic adhesions (ab), R. P. Schirmeisen and W. Teschendorf, 93: 483, 1969
- ADRENAL PREPARATIONS**
 —absent constrictive response of wound vessels to intra-arterial vasopressors: angiographic observations, John L. Doppman, Larry C. Fried, and Giovanni Di Chiro, 93: 57, 1969
 —diagnosis of traumatic laceration of spleen by selective arteriography, direct serial magnification angiography, and intra-arterial epinephrine, Harry L. Stein, 93: 367, 1969
 —epinephrine-assisted renal venography in renal vein thrombosis: report of 2 adolescents with nephrotic syndrome, Michael T. Gyepes, Donald T. Desilets, Robert K. Gray, and Roger M. Katz, 93: 793, 1969
 —epinephrophlebography of benign tumors (ab), C. G. Mikaelsson, 93: 1407, 1969
 —renal angiography with adrenalin (possibilities of pharmacangiography) (ab), M. Cen and G. Rosenbusch, 93: 980, 1969
- ADRENALIN.** See Adrenal Preparations
- ADRENALS**
 cancer
 —differentiation of intrahepatic and extrahepatic masses by arteriography, Plinio Rossi and Francis F. Ruzicka, Jr., 93: 771, 1969
 radioisotope studies
 —approach to developing adrenal-gland scanning (ab), T. Nagai et al, 93: 493, 1969
 roentgenography
 —frequency of demonstration of adrenals in abdominal survey arteriogram (ab), J. Balaa and H.-J. Maurer, 93: 1406, 1969
 tumors
 —angiographic diagnosis of benign adrenal adenoma (ab), J. G. McNulty et al, 93: 240, 1969
 —epinephrophlebography of benign tumors (ab), C. G. Mikaelsson, 93: 1407, 1969
 —unusual radiologic features of pheochromocytoma (ab), Morton A. Meyers and Max C. King, 93: 983, 1969
- AEROSOLS**
 —aerosol bronchography: preliminary report (ab), T. H. Johnson, Jr., and W. J. Howland, 93: 716, 1969
- AFTERLOADING.** See Radium; Uterus, Cancer, radiotherapy
- AGARWAL, K. N.** See SAHA, M. M.
- AGE AND AGING**
 See also Old Age
 —changes in metacarpal mineral content and density in normal male and female subjects with age (ab), D. A. Smith et al, 93: 975, 1969
 —goose-neck deformity: degeneration of components of cervical vertebrae (ab), Charles J. Suto, 93: 238, 1969
 —presenile dementia and Alzheimer's disease in mongolism (ab), Mary I. Olson and Cheng-Mei Shaw, 93: 955, 1969
 —radiation and aging effect on taste structure and function (ab), Alan D. Conger and Marsha A. Wells, 93: 994, 1969
- AGEE, O. F.** See KAUDE, JÜRIG
- AHLBERG, N. E., BARTLEY, O., and PAULIN, S.** Roentgenologic diagnosis of congenital pericardial defect: description of case (ab), 93: 965, 1969
- AHRENS, CHARLES R.** See TROW, RICHARD S.
- AIR**
 See also Biliary Tract, gas in; Brain, roentgenography; Emphysema; Liver, gas in
 —air cystometry (ab), W. Bradley et al, 93: 737, 1969
- AJAYI, O. O. A., SOLANKE, T. F., SERIKI, O., and BOHRER, S. P.** Hirschsprung's disease in neonate presenting as cecal perforation (ab), 93: 1225, 1969
- AKISADA, M., TASAKA, A., and MIKAMI, R.** Lymphography in sarcoidosis: comparison with roentgen findings in chest: report of 15 cases, 93: 1273, 1969
- ALBERT, ROY E.** See BURNS, FREDERIC J.
- ALCANTARA, A. N.** See GOVONI, A. F.
- ALCOHOLISM**
 —primary cardiomyopathy in nonanemic patients: association with sickle-cell trait (ab), Renee Altman Fleischer and Shirley Rubler, 93: 229, 1969
- ALDER, M. A.** See HENDEE, W. R.
- ALDRIDGE, H. E.** See LANSDOWN, E. L.
- ALEXANDER, W. J.** Notching of renal pelvis (ab), 93: 736, 1969
- ALKALI**
 —pyloric stenosis: unusual complication of alkaline corrosive poisoning (ab), Vivian J. Harris, 93: 484, 1969
- ALKER, G. J., Jr.** See GLASAUER, F. E.
- ALLEN, K. LEWER, and KERR, W. A.** Chordomas of the clivus and the cervical spine (ab), 93: 486, 1969
- ALLEN, P. W.** See MATOUSEK, V.
- ALLEN, R. PARKER.** See DAVIS, WILLIAM S.
- ALLEN, ROBERT W., HOLT, ALLEN H., and BROWN, MATTHEW G.** Acute pulmonary sensitivity to nitrofurantoin (ab), 93: 714, 1969
- ALLERGY.** See Anaphylaxis and Allergy
- ALLMAN, ROBERT M.** RPC of the Month from the AFIP (fibroxanthoma), 93: 167, 1969
- See TRODAHL, JOHN N.
- ALPHA PARTICLES**
 —RBE for skin tumors and hair follicle damage in rat following irradiation with alpha particles and electrons (ab), Frederic I. Burns et al, 93: 498, 1969
- ALTEMUS, REED, CHARLES, DAVID, and STOCK, RICHARD J., Jr.** Hysteroangiography used in diagnosis of intrauterine trauma (ab), 93: 734, 1969
- ALTMAN, D. H., LAVASTIDA, M. T., LITT, R. E., and GREENBERY, L. A.** Roentgen evaluation of urinary tract following treatment for vesicoureteral reflux, 93: 593, 1969
- ALUMINUM AND ALUMINUM COMPOUNDS**
 See also Radioiodium
 toxicity
 —in (aluminum) hydroxide particles for lung scanning, Richard S. Trow, Donald W. Brown, Charles R. Ahrens, James D. Cleaveland, and Jong Il Lee, 93: 611, 1969
- ALVEOLAR SARCOMA.** See Sarcoma
- ALVEOLAR-CELL TUMORS.** See Lungs, tumors
- ALVES, DANIEL J., SMITH, STOVER, DANNER, PAUL, and VIAMONTE, MANUEL, Jr.** Simple aid for peripheral venography, 93: 694, 1969
- ALVORD, ELLSWORTH C., Jr.** See SHAW, CHENG-MEI
- ALZHEIMER'S DISEASE.** See Dementia
- AMALRIC, R.** See LEGRÉ, J.
- AMAR, ARJAN D.** Reflux in duplicated ureters (ab), 93: 1231, 1969
- AMBERG, JOHN R.** See MAINZER, FRANK
- See ZBORALSKE, F. FRANK
- AMBRUS, JULIAN L.** See TAKADA, AKIKAZU
- AMEBIASIS**
 —amebiasis in northern Saskatchewan: radiological aspects (ab), Stanley Tchang, 93: 234, 1969
- AMERICAN BOARD OF RADIOLOGY,** 93: 184, 1969
- AMERICAN COLLEGE OF RADIOLOGY**
 —American College of Radiology opens Washington office, 93: 451, 1969
- AMERICAN THORACIC SOCIETY,** 93: 706, 1969
- AMINOPHYLLINE**
 —radiographic demonstration of bronchospasm and its relief by aminophylline (ab), J. S. M. Beales and H. M. Saxton, 93: 718, 1969
- AMNIOPHGRAPHY.** See Amniotic Fluid
- AMNIOTIC FLUID**
 —amniography for clinical evaluation of erythroblastosis fetalis (ab), John T. Queenan et al, 93: 487, 1969
 —value of amniography in determining fetal viability (ab), H. Spindola-Franco et al, 93: 979, 1969
- AMPLATZ, KURT.** See DAVIDSON, HAROLD D.
- AMYLOIDOSIS**
 —RPC of Month from AFIP (amyloid tumor of lung), Maurice M. Reeder, Liselotte Hochholzer, and Ronald G. Evens, 93: 1369, 1969
- ANALGESICS**
 —calcification of renal papillae as sign of analgesic nephropathy (ab), K. J. Murphy, 93: 239, 1969
- ANAPHYLAXIS AND ALLERGY**
 See also Immunity
 —acute pulmonary sensitivity to nitrofurantoin (ab), Robert W. Allen et al, 93: 714, 1969
 —chronic nitrofurantoin pulmonary reaction: report of 5 cases (ab), E. C. Rosenow, III, et al, 93: 714, 1969
 —lung and paranasal sinuses: beginnings and progression of disease with influence of allergy and infection (bk rev), William Walter Wasson, 93: 1158, 1969

- ANASTOPOULOS, HARRY P.** See **WILLIAMS, LACY H.**
- ANDERSEN, A. P., and BRINCKER, H.:** Intracavitary thio-TEPA in malignant pleural and peritoneal effusions (ab), 93: 241, 1969
- ANDERSON, J. B.** See **SMITH, D. A.**
- ANDRÉN, L., FREDZELL, G., and SJÖGREN, S. E.:** Working space for urologic roentgen diagnosis (ab), 93: 1233, 1969
- ANDREWS, G. A.** See **COMAS, F. V.**
- ANDROGENS**
—effect of testosterone treatment and hypophysectomy on leukocyte count in irradiated rats (ab), E. Robinson and I. Chowers, 93: 242, 1969
- ANEMIA**
See also Radiobiology
—congenital anemia and triphalangeal thumbs: new syndrome (ab), Jon M. Aase and David W. Smith, 93: 1403, 1969
—primary cardiomyopathy in nonanemic patients: association with sickle-cell trait (ab), Renee Altman Fleischer and Shirley Rubler, 93: 229, 1969
sickle-cell
—roentgen chest findings in childhood sickle-cell anemia: new vertebral body finding (ab), Webster Riggs, Jr., and John F. Rockett, 93: 719, 1969
- ANESTHESIA**
—note on injection of lidocaine in common bile duct, 93: 1122, 1969
- ANEURYSM**
aortic
—aneurysm of aortic sinuses and ascending aorta in Turner's syndrome (ab), James E. Youker and Benson B. Roe, 93: 1220, 1969
—grooving of great veins: another, albeit indirect, sign of aortic dissection (ab), Israel Steinberg and Harry L. Stein, 93: 226, 1969
—interscapular pain associated with widening of mediastinum (ab), Edwin O. Wheeler and Austin L. Vickery, Jr., 93: 963, 1969
—multiple aneurysms of abdominal aorta (ab), S. Osher Pais et al, 93: 721, 1969
—problems in aortographic diagnosis of dissecting aneurysm of aorta (ab), W. W. Shuford et al, 93: 965, 1969
—roentgenographic findings in extracardiac injury secondary to blunt chest automobile trauma (ab), T. A. Freed et al, 93: 228, 1969
—ruptured aortic aneurysm in 3 1/2-year-old child with coarctation of aorta (ab), Robert Cossette et al, 93: 1219, 1969
arteriovenous. See **Fistula, arteriovenous**
cardiac
—aneurysm of membranous portion of ventricular septum (ab), Sing San Yang et al, 93: 1221, 1969
—false aneurysms of left ventricle following myocardial infarction (ab), Elliot Chesler et al, 93: 1221, 1969
—intercalative angiocardiology: method for recording cardiovascular dynamics on single film, James T. T. Chen, Henry D. McIntosh, M. Paul Capp, James J. Morris, Jr., Ramon V. Canent, Jr., and Richard G. Lester, 93: 499, 1969
—postoperative aneurysms following ligation of patent ductus arteriosus (ab), R. F. Payne and S. C. Jordan, 93: 477, 1969
—traumatic pseudoaneurysm of left ventricle (ab), V. A. Vix and D. A. Killen, 93: 225, 1969
—Valsalva maneuver in diagnosis of left ventricular aneurysm, A. Franklin Turner and George Jacobson, 93: 9, 1969
carotid
—aneurysm of internal carotid artery due to closed trauma (ab), James H. Salmon and Ethyl S. Blatt, 93: 224, 1969
—traumatic dissection of internal carotid artery at atlantoaxial level, secondary to nonpenetrating injury, Paul F. New and K. Jack Momose, 93: 41, 1969
celiac
—preoperative angiographic diagnosis of bleeding aneurysms of abdominal visceral arteries, Erik Boijesen, Jan Göthlin, Torgil Hallböök, and Philip Sandblom, 93: 781, 1969
cerebral. See also **Aneurysm, intracranial**
—cerebral vasospasm induced by subarachnoid blood and serotonin: angiographic study (ab), Robert W. B. Chow et al, 93: 473, 1969
—limbic system infarction: report of two cases (ab), Amin A. Faris, 93: 956, 1969
—multiple cerebral mycotic aneurysms complicating post-traumatic Pseudomonas meningitis: case report (ab), Kathleen P. Heidelberger et al, 93: 712, 1969
—thrombosis of aneurysm of anterior communicating artery: case report (ab), Joseph P. Lin, 93: 965, 1969
gastrooduodenal
—preoperative angiographic diagnosis of bleeding aneurysms of abdominal visceral arteries, Erik Boijesen, Jan Göthlin, Torgil Hallböök, and Philip Sandblom, 93: 781, 1969
hepatic
—preoperative angiographic diagnosis of bleeding aneurysms of abdominal visceral arteries, Erik Boijesen, Jan Göthlin, Torgil Hallböök, and Philip Sandblom, 93: 781, 1969
intracranial. See also **Aneurysm, cerebral**
—concurrent rupture of intracranial and intra-abdominal aneurysms: case report (ab), John L. Greene and William F. McCormick, 93: 473, 1969
—posterior fossa aneurysms presenting as mass lesions (ab), H. F. W. Pribram et al, 93: 1213, 1969
mesenteric
—preoperative angiographic diagnosis of bleeding aneurysms of abdominal visceral arteries, Erik Boijesen, Jan Göthlin, Torgil Hallböök, and Philip Sandblom, 93: 781, 1969
renal
—renal arteriovenous aneurysm causing hydronephrosis and renal atrophy (ab), William E. Painter et al, 93: 230, 1969
—renal artery aneurysm: cause of segmental alteration in renal blood flow and hypertension (ab), Wylie J. Dodds et al, 93: 229, 1969
rupture. See other subheads under **Aneurysm, as Aneurysm, aortic**
splenic
—aneurysm of splenic artery (ab), Erik Boijesen and H.-O. Efsing, 93: 966, 1969
—concurrent rupture of intracranial and intra-abdominal aneurysms: case report (ab), John L. Greene and William F. McCormick, 93: 473, 1969
—intrasplenic arterial aneurysms (ab), Stewart R. Reuter and Helen C. Redman, 93: 727, 1969
—preoperative angiographic diagnosis of bleeding aneurysms of abdominal visceral arteries, Erik Boijesen, Jan Göthlin, Torgil Hallböök, and Philip Sandblom, 93: 781, 1969
temporal
—aneurysms of superficial temporal artery (ab), Charles B. Wilson, 93: 1214, 1969
vertebral
—traumatic aneurysms and traumatic arteriovenous fistulae (ab), W. G. Tucker and L. V. Perrett, 93: 1221, 1969
- ANEURYSMAL BONE CYST.** See **Bones, cysts**

- gastrointestinal function after abdominal cobalt irradiation (ab), E. Ratzkowski and A. Hochman, 93: 745, 1969
- intestinal complications of pelvic irradiation for gynecologic cancer (ab), A. N. Smith et al, 93: 247, 1969
- late damages after internal application of thorium X (radium-224) (ab), F. Schales, 93: 497, 1969
- long-time survivals of patients with cancer of eye and surrounding structures treated with radiation therapy (ab), Charles L. Martin, 93: 1408, 1969
- mammary carcinoma after irradiation: report of two cases (ab), W. Mareel and P. M. Van Vaerenbergh, 93: 247, 1969
- osteogenic sarcoma following radiotherapy for retinoblastoma, Tatsuo Yoneyama and Robert H. Greenlaw, 93: 1185, 1969
- peroral irradiation of carcinoma of oral tongue, Juan V. Fayos and Isadore Lamp, 93: 387, 1969
- radiation and aging effect on taste structure and function (ab), Alan D. Conger and Marsha A. Wells, 93: 994, 1969
- radiation myelitis of dorsolumbar spinal cord, John G. Maier, Ronald H. Perry, William Saylor, and Michael H. Sulak, 93: 153, 1969
- radiation nephritis (ab), Ellis J. Van Slyck and Gustavo A. Bermudez, 93: 745, 1969
- radiation tolerance of thoracic spinal cord (ab), Theodore L. Phillips and Franz Buschke, 93: 1411, 1969
- radiation-induced intracranial meningiomas (ab), J. Munk et al, 93: 992, 1969
- radiation-induced major vascular occlusion in patient cured of widespread metastases of nasopharyngeal origin, Ludwig Gross, Orlando L. Manfredi, and William C. Frederick, 93: 664, 1969

—radiation-induced neoplasia following external beam therapy for children with retinoblastoma (ab), Robert H. Sagerman et al, 93: 1418, 1969

—radiographic development of skeletal lesions in man many years after acquisition of radium burden, R. J. Hasterlik, C. E. Miller, and A. J. Finkel, 93: 599, 1969

cutaneous

—cutaneous reactions after radiation therapy: report of 7 cases (ab), William S. Maxfield and William P. Coleman, 93: 1419, 1969

gastrointestinal

—gastrointestinal function after abdominal cobalt irradiation (ab), E. Ratzkowski and A. Hochman, 93: 745, 1969

genetic, gonadal

—diagnostic irradiation, congenital malformations, and spontaneous abortion (ab), L. J. Kinlen and E. D. Acheson, 93: 247, 1969

hematologic; hemopoietic

—chromosomal aberrations induced by plasma from irradiated patients: indirect effect of x radiation; further observations and studies of control population, L. Gayle Littlefield, Joseph G. Hollowell, Jr., and M. H. Pool, Jr., 93: 879, 1969

—late damages after internal application of thorium X (radium-224) (ab), F. Schales, 93: 497, 1969

in physicians, radiation personnel, etc.

—chromosomal changes through professional exposure to radium therapy (ab), M. Bauchinger and O. Hug, 93: 248, 1969

industrial

—evaluation of mercury-203 exposure, L. M. Scott, 93: 338, 1969

—radiographic development of skeletal lesions in man many years after acquisition of radium burden, R. J. Hasterlik, C. E. Miller, and A. J. Finkel, 93: 599, 1969

neoplastic

—breast cancer after exposure to atomic bombings of Hiroshima and Nagasaki (ab), C. K. Wanebo et al, 93: 247, 1969

—lung cancer following atomic radiation (ab), C. K. Wanebo et al, 93: 745, 1969

—mammary carcinoma after irradiation: report of two cases (ab), W. Mareel and P. M. Van Vaerenbergh, 93: 247, 1969

—osteogenic sarcoma following radiotherapy for retinoblastoma, Tatsuo Yoneyama and Robert H. Greenlaw, 93: 1185, 1969

—radiation-induced neoplasia following external beam therapy for children with retinoblastoma (ab), Robert H. Sagerman et al, 93: 1418, 1969

—thyroid carcinoma in atomic bomb survivors, Hiroshima and Nagasaki (ab), James W. Wood et al, 93: 992, 1969

neurologic

—radiation tolerance of thoracic spinal cord (ab), Theodore L. Phillips and Franz Buschke, 93: 1411, 1969

ophthalmologic

—eye findings in atomic bomb survivors of Hiroshima and Nagasaki: 1963-1964 (ab), M. Dean Nefzger et al, 93: 1239, 1969

osseous

—late damages after internal application of thorium X (radium-224) (ab), F. Schales, 93: 497, 1969

—radiographic development of skeletal lesions in man many years after acquisition of radium burden, R. J. Hasterlik, C. E. Miller, and A. J. Finkel, 93: 599, 1969

pulmonary

—effects of thoracic irradiation on pulmonary arterial perfusion in man, Stanford M. Goldman, Leonard M. Freeman, Nemetallah A. Ghossein, and Louis J. Sanfilippo, 93: 289, 1969

urinary

—radiation nephritis (ab), Ellis J. Van Slyck and Gustavo A. Bermudez, 93: 745, 1969

RADIOARSENIC

—cisternal brain scanning with positron emitting isotopes (ab), J. Donald McQueen and Kazem Abbassoun, 93: 740, 1969

—uptake of radioarsenic-labeled chronic β -glycerophosphate by experimental brain tumors (ab), Leopoldo J. Anghileri et al, 93: 1416, 1969**RADIOBIOLOGY**

—effects of x-irradiation on immune response of guinea pigs to Q fever vaccine (ab), Scott L. Reynolds et al, 93: 249, 1969

RADIOBIOLOGY—cont.**blood and hemopoietic studies**

- cerebral vasospasm induced by subarachnoid blood and serotonin: angiographic study (ab), Robert W. B. Chow et al, 93: 473, 1969
- effect of ionizing radiation on total protein-bound neutral hexoses in plasma of mice (ab), Adelbert S. Evans et al, 93: 250, 1969
- effect of testosterone treatment and hypophysectomy on leukocyte count in irradiated rats (ab), E. Robinson and J. Chowers, 93: 242, 1969
- effects of small doses of radioactive strontium on rat bone marrow (ab), T. Stokke et al, 93: 246, 1969
- erythropoietic response to total-body irradiation in splenectomized mice, Louise Lisi, Luther M. Brady, Isadore Brodsky, and Susanna T. Ruggieri, 93: 682, 1969
- mechanism of radiation hemolysis in human erythrocytes (ab), George Kolmann et al, 93: 1419, 1969
- method for determining residual injury in hematopoietic system of x-irradiated rat (ab), J. K. Gong et al, 93: 1419, 1969
- size distribution changes in peripheral lymphocytes of rat after x irradiation (ab), H. L. Berke et al, 93: 993, 1969
- unscheduled incorporation of thymidine in ultraviolet-irradiated human lymphocytes (ab), Richard G. Evans and Amos Norman, 93: 498, 1969

bone studies. See also Radiobiology, musculoskeletal system.

- radiation-induced delayed union of fractures, Nathan Green, Samuel French, George Rodriguez, Michael Hays, and Aaron Fingerhut, 93: 635, 1969

bone-marrow studies

- biphasic pattern of thymus regeneration after whole-body irradiation (ab), Akikazu Takada et al, 93: 1418, 1969
- effects of small doses of radioactive strontium on rat bone marrow (ab), T. Stokke et al, 93: 246, 1969

cancer, tumor studies

- comparative clinical, histologic, and radiotherapeutic aspects of canine and human malignant lymphoma, Ralph E. Johnson, Gregory T. O'Connor, William Titus, and Mark D. Hafermann, 93: 395, 1969
- effects of local x irradiation on relative rates of incorporation of thymidine-methyl-5-³H and cytidine-5-³H into mitochondrial and nuclear DNA of Morris hepatoma 3924A, W. B. Looney, L. O. Chang, and H. P. Morris, 93: 1159, 1969
- effects of radiation and ethionine on rat mammary tumor incidence (ab), Norman C. Telles and Billy C. Ward, 93: 1420, 1969
- enhancement of murine ascites tumor cell killing with x irradiation by thiol-binding agents (ab), H. Moroson et al, 93: 994, 1969
- evaluation of ytterbium-169 diethylenetriaminepentaacetic acid as brain-scanning agent, David L. Gilday, Richard C. Reba, Fazle Hossain, Rosemary Longo, and Henry N. Wagner, Jr., 93: 1129, 1969
- influence of intracellular recovery and hypoxic cells on radiation response of mammary tumors and skin in C₃H mice (ab), P. J. Cheshire and Patricia J. Lindop, 93: 1420, 1969
- metastasis following radiotherapy in hyperbaric oxygen, John C. Evans, 93: 1155, 1969
- neoplasms and related disorders of invertebrate and lower vertebrate animals (bk rev), ed. by Clyde J. Dawe and John C. Harshbarger, 93: 56, 1969
- radiation-induced efflux of intracellular potassium (ab), K. B. Dawson et al, 93: 994, 1969
- radiosensitivity and biological properties of tumors. XIV: Correlation between mitochondrial structure, oxidative metabolism, and radiosensitivity (ab), Anna Goldfeder and Joseph N. Selig, 93: 1418, 1969

cardiovascular studies

- absent constrictive response of wound vessels to intra-arterial vasopressors: angiographic observations, John L. Dopman, Larry C. Fried, and Giovanni Di Chiro, 93: 57, 1969
- cerebral angiography after arteriolar embolization: angiography of acute phase in monkey (ab), Ernest J. Ferris et al, 93: 959, 1969
- detection of minute venous air emboli with ultrasound (ab), J. C. Maroon et al, 93: 967, 1969
- diagnosis of deep-vein thrombosis in leg using ¹²⁵I-fibrinogen (ab), P. Atkins and L. A. Hawkins, 93: 744, 1969
- effect of parabens on permeability of blood: brain barrier to water-soluble radiopaque media (ab), William H. Strain et al, 93: 1238, 1969
- experimental fibromuscular arterial dysplasia, Neville J. H. Rothfield, 93: 1291, 1969
- fate of experimentally induced coronary artery thrombosis (ab), Allen B. Weiss et al, 93: 1222, 1969
- hydrogen peroxide and radiotherapy bubble formation in blood (ab), R. J. R. Johnson et al, 93: 242, 1969
- indwelling silastic cannula for repeated vascular access in experimental animals, Harold D. Snow, Richard J. Steckel, and James D. Collins, 93: 1194, 1969
- physiologic studies of pulmonary circulation and ductus arteriosus of sheep and goat fetuses: application of cine-angiographic techniques (ab), Neville Kaplan and Abraham M. Rudolph, 93: 1395, 1969
- roentgen-guided infarctions of kidneys and lungs: potential therapeutic technique, Anthony F. Lalli, Neil Peterson, and Joseph J. Bookstein, 93: 434, 1969

- use of glucagon as vasodilator in visceral angiography, Richard O. Danford and Alan J. Davidson, 93: 173, 1969

cell and tissue studies

- development of ultrastructural radiation injury (ab), M. R. Hendee et al, 93: 1239, 1969
- differential response of rapidly and slowly proliferating human cells to x irradiation, John B. Little, 93: 307, 1969
- effects of local x irradiation on relative rates of incorporation of thymidine-methyl-5-³H and cytidine-5-³H into mitochondrial and nuclear DNA of Morris hepatoma 3924A, M. B. Looney, L. O. Chang, and H. P. Morris, 93: 1159, 1969
- enhancement of murine ascites tumor cell killing with x irradiation by thiol-binding agents (ab), H. Moroson et al, 93: 994, 1969
- histologic effect of fractionated doses of selectively applied megavoltage irradiation on major salivary glands of albino rat, Richard P. Elzay, Seymour H. Levitt, and M. Timothy Sweeney, 93: 146, 1969
- hypoxic protection and recovery in tumor cells irradiated at low dose-rates and assessed in vivo (ab), Roger J. Berry, 93: 746, 1969
- influence of intracellular recovery and hypoxic cells on radiation response of mammary tumors and skin in C₃H mice (ab), P. J. Cheshire and Patricia J. Lindop, 93: 1420, 1969
- quantitative studies on radiosensitivity of single cells in nervous tissue (ab), Olle Hallén et al, 93: 1417, 1969
- radiation fractionation as applied to murine colony-forming cells in differing proliferative states, John T. Chaffey and Samuel Hellman, 93: 1167, 1969
- recovery and modification of radiation-induced division delay in developing sea urchin eggs, Patricia Faila, 93: 643, 1969
- relative biological effect of ²⁵²Cf radiation on HeLa cells in culture, R. G. Fairchild, R. M. Drew, and H. L. Atkins, 93: 1187, 1969
- studies on stage radiosensitivity and DNA synthesis of chromosomes in cultured human cells (ab), Yung Suu Kang and Sang Dai Park, 93: 1239, 1969
- survival of mammalian cells exposed to x rays at ultrahigh dose rates (ab), Roger J. Berry et al, 93: 1239, 1969
- x-ray sensitivity of synchronized Chinese hamster cells irradiated during hypoxia (ab), Jack Kruuv and Warren K. Sinclair, 93: 249, 1969

cutaneous studies

- RBE for skin tumors and hair follicle damage in rat following irradiation with alpha particles and electrons (ab), FredERIC J. Burns et al, 93: 498, 1969
- recovery and repopulation in mouse skin as function of time after x irradiation (ab), J. Denekamp et al, 93: 1242, 1969
- response of skin of swine to increasing multiple exposures of x ray (250 kVp) (ab), J. O. Archambeau et al, 93: 993, 1969
- response of skin of swine to increasing single exposures of 250-kVp x-rays (ab), J. O. Archambeau et al, 93: 498, 1969

digestive tract studies. See also Radiobiology, liver studies.

- demonstration of effect of irradiation on canine bowel using in vivo photographic magnification angiography, Morton A. Bosniak, Mark A. Hardy, Jerome Quint, and N. A. Ghossein, 93: 1361, 1969
- gastric retention and its changes in mice and rats during first six days following x irradiation (ab), Vladimir Chemlar et al, 93: 1420, 1969
- insufflation of powdered tantalum in esophagus: new esophagographic technic (ab), J. A. Nadel et al, 93: 1390, 1969
- marking feline esophagus with small tantalum wires: experimental technic, Edward T. Stewart and Wylie J. Dodds, 93: 176, 1969

dosage studies

- development of ultrastructural radiation injury (ab), W. R. Hendee et al, 93: 1239, 1969
- effect of high-pressure oxygen on acute radiation mortality in mice (ab), Gerald M. Christensen et al, 93: 1241, 1969
- effects of large doses of orally ingested strontium 90 on young cattle (ab), R. G. Cragle et al, 93: 1240, 1969
- effects of small doses of radioactive strontium on rat bone marrow (ab), T. Stokke et al, 93: 246, 1969
- fertility of mouse after fractionated and protracted irradiation during gestation (ab), Hanns Langendorff and Margarethe Langendorff, 93: 1241, 1969
- histologic effect of fractionated doses of selectively applied megavoltage irradiation on major salivary glands of albino rat, Richard P. Elzay, Seymour H. Levitt, and W. Timothy Sweeney, 93: 146, 1969
- hydrocephaly following fetal x irradiation, John J. Senszyn and Roberts Rugh, 93: 625, 1969
- hypoxic protection and recovery in tumor cells irradiated at low dose-rates and assessed in vivo (ab), Roger J. Berry, 93: 746, 1969
- increased radiosensitivity following simultaneous ultrasonic and gamma-ray irradiation, E. Spring, 93: 175, 1969
- indirect effect of x irradiation on embryonic development: utilization of high doses of maternal irradiation on first day of gestation (ab), Robert L. Brent and Booker T. Bolden, 93: 746, 1969
- influence of contrast media and orthopedic nails on dose distribution in telecobalt and telecesium therapy (ab), Jean-M. Debois, 93: 242, 1969

RADIOBIOLOGY, dosage studies—cont.

- influence of intracellular recovery and hypoxic cells on radiation response of mammary tumors and skin in C_3H mice (ab), P. J. Cheshire and Patricia J. Lindop, 93: 1420, 1969
- metastasis following radiotherapy in hyperbaric oxygen, John C. Evans, 93: 1155, 1969
- permanent interstitial therapy using low energy and long half-life radiation sources (ab), Joseph E. Scallon et al, 93: 1414, 1969
- physical dosimetry and instrumentation for low-energy proton irradiation of primates (ab), Larry A. Boles et al, 93: 1235, 1969
- radiation effects on lymphopoiesis under continuous low dose rate exposure, Jacob I. Fabrikant, 93: 887, 1969
- radiation fractionation as applied to murine colony-forming cells in differing proliferative states, John T. Chaffey and Samuel Hellman, 93: 1167, 1969
- radiation-induced efflux of intracellular potassium (ab), K. B. Dawson et al, 93: 994, 1969
- radiation-induced involution of lymphatic organs of young chicken (ab), James L. Montour, 93: 248, 1969
- recovery and repopulation in mouse skin as function of time after x irradiation (ab), J. Denekamp et al, 93: 1242, 1969
- repair of sublethal radiation injury in hypoxic cells of C_3H mouse mammary carcinoma (ab), Herman Suit and Muneyasu Urano, 93: 1241, 1969
- repopulation of irradiated lymph nodes by recirculating lymphocytes (ab), D. L. Benninghoff et al, 93: 1240, 1969
- response of skin of swine to increasing multiple exposures of x ray (250 kVp) (ab), J. O. Archambeau et al, 93: 993, 1969
- response of skin of swine to increasing single exposures of 250-kVp x-rays (ab), J. O. Archambeau et al, 93: 498, 1969
- size distribution changes in peripheral lymphocytes of rat after x irradiation (ab), H. L. Berke et al, 93: 993, 1969
- spectral and dosimetric characteristics of soft x rays for studies in radiobiology, B. C. Clark and W. Gross, 93: 139, 1969
- study of some metabolic requirements for repair of sublethal radiation damage, Regina Roux Ashby, Frederick J. Bonte, and James A. Belli, 93: 895, 1969
- survival of mammalian cells exposed to x rays at ultrahigh dose rates (ab), Roger J. Berry et al, 93: 1239, 1969
- x-ray sensitivity of synchronized Chinese hamster cells irradiated during hypoxia (ab), Jack Kruuv and Warren K. Sinclair, 93: 249, 1969
- embryonal, fetal, genetic studies**
 - effects of prenatal x irradiation: studies on mechanism of x-irradiation-induced inhibition of microsomal enzyme development in rat liver (ab), V. Nair et al, 93: 994, 1969
 - effects of x radiation on mouse fetus during gestation: emphasis on distribution of cerebral lesions. Part II (ab), Anatole S. Dekaban, 93: 1240, 1969
 - fecundity of *Gambusia affinis* affinis population exposed to chronic environmental radiation (ab), B. G. Blaylock, 93: 1242, 1969
 - fertility of mouse after fractionated and protracted irradiation during gestation (ab), Hans Langendorf and Margarethe Langendorf, 93: 1241, 1969
 - hydrocephaly following fetal x irradiation, John J. Senyszyn and Roberts Rugh, 93: 625, 1969
 - indirect effect of x irradiation on embryonic development: utilization of high doses of maternal irradiation on first day of gestation (ab), Robert L. Brent and Booker T. Bolden, 93: 746, 1969
 - physiologic studies of pulmonary circulation and ductus arteriosus of sheep and goat fetuses: application of cineangiographic techniques (ab), Neville Kaplan and Abraham M. Rudolph, 93: 1395, 1969
 - radiosensitivity and regulation of population density in yellow fever mosquito (*Aedes aegypti*) (ab), William K. Willard, 93: 1420, 1969
 - recovery and modification of radiation-induced division delay in developing sea urchin eggs, Patricia Failla, 93: 643, 1969
- endocrine studies**
 - biphasic pattern of thymus regeneration after whole-body irradiation (ab), Akikazu Takada et al, 93: 1418, 1969
 - circulating antidiuretic hormone in x-irradiated rat (ab), Anton F. Vierling et al, 93: 993, 1969
 - early changes in fine structure of thyroid of midlethly irradiated dogs (ab), James N. Shively and Glenwood P. Epling, 93: 993, 1969
 - effect of ionizing irradiation on lipid biosynthesis by thymus and liver (ab), Constantinos J. Miras et al, 93: 247, 1969
 - effect of ionizing irradiation on oxidation of palmitate-1- ^{14}C by thymus and liver (ab), Constantinos J. Miras et al, 93: 498, 1969
 - effect of testosterone treatment and hypophysectomy on leukocyte count in irradiated rats (ab), E. Robinson and I. Chowers, 93: 242, 1969
 - potential value of toluidine blue analogs as parathyroid scanning agents (ab), Cuprem S. Kang and Walter DiGiulio, 93: 742, 1969
 - radiation-induced asymmetry and lymphoma of thymus in mice (ab), Bertil Järplid, 93: 249, 1969
- growth studies**
 - food intake and growth of burro foals after 250 roentgens of cobalt-60 whole-body gamma irradiation (ab), J. J. Knapka et al, 93: 248, 1969

immunity studies

- effects of x-irradiation on immune response of guinea pigs to Q fever vaccine (ab), Scott L. Reynolds et al, 93: 249, 1969

lethality studies

- effect of high-pressure oxygen on acute radiation mortality in mice (ab), Gerald M. Christensen et al, 93: 1241, 1969

leukemia studies

- hypoxic protection and recovery in tumor cells irradiated at low dose rates and assessed in vivo (ab), Roger J. Berry, 93: 746, 1969
- unscheduled incorporation of thymidine in ultraviolet-irradiated human lymphocytes (ab), Richard G. Evans and Amos Norman, 93: 498, 1969

liver studies

- effect of ionizing irradiation on lipid biosynthesis by thymus and liver (ab), Constantinos J. Miras et al, 93: 247, 1969

- radioisotope scanning in experimental and clinical orthotopic liver transplantation (ab), Carl G. Groth et al, 93: 243, 1969

lymphatic studies

- mediastinal lymphography (ab), Carl H. Johnner and Klaus Ranniger, 93: 968, 1969
- radiation effects on lymphopoiesis under continuous low dose rate exposure, Jacob I. Fabrikant, 93: 887, 1969
- radiation-induced involution of lymphatic organs of young chicken (ab), James L. Montour, 93: 248, 1969
- repopulation of irradiated lymph nodes by recirculating lymphocytes (ab), D. L. Benninghoff et al, 93: 1240, 1969

metabolic studies

- effect of ionizing irradiation on lipid biosynthesis by thymus and liver (ab), Constantinos J. Miras et al, 93: 247, 1969
- study of some metabolic requirements for repair of sublethal irradiation damage, Regina Roux Ashby, Frederick J. Bonte, and James A. Belli, 93: 895, 1969

musculoskeletal system

- effect of ^{60}Co irradiation and synovial, tendon, and muscle tissues of dogs (ab), Pentti Rissanen et al, 93: 1419, 1969

neurologic and psychologic studies

- cerebral angiography after arteriolar embolization: angiography of acute phase in monkey (ab), Ernest J. Ferriset et al, 93: 959, 1969
- cerebral vasospasm induced by subarachnoid blood and serotonin: angiographic study (ab), Robert W. B. Chow et al, 93: 473, 1969
- effect of parabens on permeability of blood: brain barrier to water-soluble radiopaque media (ab), William H. Strain et al, 93: 1238, 1969
- effects of x radiation on mouse fetus during gestation: emphasis on distribution of cerebral lesions. Part II (ab), Anatole S. Dekaban, 93: 1240, 1969
- extradural spinal cord compression by tumor. Part I: Experimental production and treatment trials, Philip Rubin, 93: 1243, 1969
- quantitative studies on radiosensitivity of single cells in nervous tissue (ab), Olle Hallén et al, 93: 1417, 1969

protective and therapeutic agents

- effectiveness of anticonvulsants in mice exposed to mixed gamma-neutron radiations (ab), Lawrence W. Davis and Thomas A. Strike, 93: 746, 1969
- hypoxic protection and recovery in tumor cells irradiated at low dose rates and assessed in vivo (ab), Roger J. Berry, 93: 746, 1969
- radioprotective action of dihydroxyphenylethylamine (Dopamine) on whole-body x-irradiated rats (ab), Kedar N. Prasad and Melvin H. VanWoert, 93: 1240, 1969
- recovery and modification of radiation-induced division delay in developing sea urchin eggs, Patricia Failla, 93: 643, 1969

pulmonary studies

- distribution and scintiphotography of new lung-scanning agent, ^{99m}Tc -macroaggregated albumin: studies in rodent (ab), Shin-Hwa Yeh et al, 93: 1415, 1969
- roentgen-guided infarctions of kidneys and lungs: potential therapeutic technique, Anthony F. Lalli, Neil Paterson, and Joseph J. Bookstein, 93: 434, 1969
- upper respiratory tract clearance in rats after thoracic irradiation (ab), Joseph A. Watson et al, 93: 993, 1969
- xenon as inhalation contrast medium under hyperbaric conditions: animal studies (ab), Stefan S. Winkler, 93: 720, 1969

radiosensitivity. See Radiosensitivity

- relative biological effectiveness
 - RBE for skin tumors and hair follicle damage in rat following irradiation with alpha particles and electrons (ab), Frederic J. Burns et al, 93: 498, 1969
 - relative biological effect of ^{252}Cf radiation on HeLa cells in culture, R. G. Fairchild, R. M. Drew, and H. L. Atkins, 93: 1187, 1969
 - relative biological effectiveness of fast neutrons for mammalian tissues, Stanley B. Field, 93: 915, 1969

spleen studies

- erythropoietic response to total-body irradiation in splenectomized mice, Louise Lisi, Luther W. Brady, Isadore Brodsky, and Susanna T. Ruggieri, 93: 682, 1969

urinary tract studies

- air cystometry (ab), W. Bradley et al, 93: 737, 1969

RADIOBIOLOGY, urinary tract studies—cont.

- determination of transported uterine volume in dogs by cineoerentogenic analysis (ab), Raymond Gramiak and Paul Ross, 93: 240, 1969
- mechanism of excretion of radioiodinated sodium iothalamate, Robert J. Griep and Wil B. Nelp, 93: 807, 1969
- radioisotope and renal functional characterization of baboon kidney during normothermic, bloodless, isolated perfusion (ab), P. D. Van Heerden et al, 93: 244, 1969
- roentgen-guided infarctions of kidneys and lungs: potential therapeutic technic, Anthony F. Lalli, Neil Peterson, and Joseph J. Bookstein, 93: 434, 1969

RADIOCALCIUM

- detection of neoplastic bone lesions by quantitative scanning and radiography (ab), E. J. Greenberg et al, 93: 741, 1969
- kinetics of radionuclides used for bone studies (ab), D. A. Weber et al, 93: 991, 1969
- ^{90}Sr scintimetry in osteoarthritis of knee (ab), Göran C. H. Bauer and Edward M. Smith, 93: 1415, 1969

RADIOCALIFORNIUM

- relative biological effect of ^{252}Cf radiation on HeLa cells in culture, R. G. Fairchild, R. M. Drew, and H. L. Atkins, 93: 1187, 1969

RADIOCARBON

- effect of ionizing irradiation on oxidation of palmitate-1- ^{14}C by thymus and liver (ab), Constantinos J. Miras et al, 93: 498, 1969
- preparation of short half-lived radioactive gases for medical studies (ab), Michael J. Welch and Michel M. Ter-Pogossian, 93: 745, 1969

RADIOCESIUM

- influence of contrast media and orthopedic nails on dose distribution in telecobalt and telecesium therapy (ab), Jean M. Debois, 93: 242, 1969
- intestinal complications of pelvic irradiation for gynecologic cancer (ab), A. N. Smith et al, 93: 247, 1969

RADIOCHROMIUM

- ^{51}Cr lung scan in idiopathic pulmonary hemosiderosis (ab), Larry D. Samuels and Jack C. Bass, 93: 1238, 1969
- elution of ^{51}Cr from labelled leukocytes—new theory (ab), Peter M. Ronai, 93: 1416, 1969
- labeling of red blood cells with ^{51}Cr for spleen scans (ab), B. Friedmann et al, 93: 495, 1969
- leukocytes labeling with ^{51}Cr chromium. I. Technic and results in normal subjects (ab), Robert McMillan and James L. Scott, 93: 496, 1969
- quantitative estimation of red-cell uptake in spleen using ^{51}Cr - and ^{51}Cr -labeled red cells (ab), L. Szur et al, 93: 496, 1969
- visualization of renal structure and function with chelated radionuclides, Fazle Hosain, Richard C. Reba, and Henry N. Wagner, Jr., 93: 1135, 1969

RADIOCOBALT

- See also Radiobiology
- effect of ^{60}Co irradiation and synovial, tendon, and muscle tissues of dogs (ab), Pentti Kissanen et al, 93: 1419, 1969
- mechanism of radiation hemolysis in human erythrocytes (ab), George Kollmann et al, 93: 1419, 1969
- practical method of obtaining density distribution within patients, J. Garrett Holt and John S. Laughlin, 93: 161, 1969
- dosimetry
- adaptation of table-top computer to complete cobalt-60 radiation therapy dosimetry and treatment planning. I. Dosimetric calculation, Harold Koplow, Merrill I. Feldman, and Jacob Spira, 93: 1113, 1969
- dosimetric considerations in cobalt 60 rotational therapy for esophageal lesions: comparison of transit and intraluminal dose measurement (ab), David B. Goldenberg et al, 93: 1409, 1969
- three-dimensional dose distribution in cobalt-60 teletherapy of head and neck, Carl M. Mansfield, Benjamin M. Galkin, N. Suntharalingam, and Michael C. Chow, 93: 401, 1969

therapy. See also under diseases, organs, and regions, as

- x-ray sensitivity of synchronized Chinese hamster cells irradiated during hypoxia (ab), Jack Kruuv and Warren K. Sinclair, 93: 249, 1969

RADIOSTRONTIUM

- detection of neoplastic bone lesions by quantitative scanning and radiography (ab), E. J. Greenberg et al, 93: 741, 1969
- effects of large doses of orally ingested strontium-90 on young cattle (ab), R. G. Cragle et al, 93: 1240, 1969
- effects of small doses of radioactive strontium on rat bone marrow (ab), T. Stokke et al, 93: 246, 1969
- kinetics of radionuclides used for bone studies (ab), D. A. Weber et al, 93: 991, 1969
- lung scanning with ^{85}Sr in metastatic osteosarcoma (ab), L. D. Samuels, 93: 741, 1969
- pathologic basis of strontium bone scan studies following administration of strontium chloride ^{85}Sr and strontium nitrate ^{90}Sr (ab), N. David Charles et al, 93: 741, 1969
- radiation-induced delayed union of fractures, Nathan Green, Samuel French, George Rodriguez, Michael Hays, and Aaron Fingerhut, 93: 635, 1969
- scintigraphy of bones with radiostrontium (bk rev), W. Bessler, 93: 852, 1969
- skeletal scintigraphy with radiostrontium (bk rev), W. Bessler, 93: 852, 1969
- skeletal survey for metastatic tumors of bone using ^{85}Sr with scintillation camera and whole-body scanner (ab), Peter Ronai et al, 93: 246, 1969
- strontium-85 scanning of suspected bone disease (ab), Victor Parsons et al, 93: 990, 1969
- ^{85}Sr scintimetry in osteoarthritis of knee (ab), Göran C. H. Bauer and Edward M. Smith, 93: 1415, 1969

RADIO TECHNETIUM

- brain scanning in cerebral vascular disease (ab), Donald E. Tow et al, 93: 988, 1969
- cerebrovascular permeability studies in cerebral neoplasms and vascular lesions: optimal dose-to-scan interval for perchnetate brain scanning (ab), W. Newlon Tauxe and Helen C. Thorsen, 93: 988, 1969
- cirrhosis and hepatic photoscan, Marvin B. Cohen, 93: 1139, 1969
- comparison of $^{113\text{m}}\text{In}$ and other short-lived agents for cerebral scanning (ab), Robert E. O'Mara et al, 93: 991, 1969
- demonstration of insulin and gastrin producing pancreatic tumor by angiography and pancreatic scanning (ab), Raymond L. Thomas et al, 93: 497, 1969
- distribution and scintiphotography of new lung-scanning agent, $^{99\text{m}}\text{Tc}$ -macroaggregated thionin: studies in rodent (ab), Shin-Hwa Yeh et al, 93: 1415, 1969
- evaluation of ytterbium-169 diethylenetriaminepentaacetic acid as brain-scanning agent, David L. Gilday, Richard C. Reba, Fazle Hosain, Rosemary Longo, and Henry N. Wagner, Jr., 93: 1129, 1969
- extracerebral brain heterotopia: case report (ab), S. M. Farhat and J. S. Hudson, 93: 1211, 1969
- inhalation and perfusion radionuclide studies of pediatric chest disease, Arvin E. Robinson, Jack K. Goodrich, and Alexander Spock, 93: 1123, 1969
- liver scanning, with special reference to $^{99\text{m}}\text{Tc}$ technetium (ab), V. A. McConnell et al, 93: 989, 1969
- lung perfusion and inhalation scanning in pulmonary emphysema (ab), Earl K. Dore et al, 93: 743, 1969
- lung scanning and pulmonary embolism (ab), R. Spencer et al, 93: 742, 1969
- measurement of uptake of $^{99\text{m}}\text{Tc}$ by thyroid (ab), A. C. de Garreta et al, 93: 742, 1969
- myeloscintigrams in assessment of lumboperitoneal shunts (ab), Shirley Murray and D. E. Wood, 93: 1237, 1969
- quantitative three-dimensional scintigraphy of the stomach with technetium ($^{99\text{m}}\text{Tc}$) (bk rev), Kai Setälä et al, 93: 384, 1969
- radiation-induced delayed union of fractures, Nathan Green, Samuel French, George Rodriguez, Michael Hays, and Aaron Fingerhut, 93: 635, 1969

- radiochemical purity of short-lived technetium $^{99\text{m}}$ from commercial suppliers, E. H. Crosby, 93: 435, 1969
- radioisotope scanning in experimental and clinical orthotopic liver transplantation (ab), Carl G. Groth et al, 93: 243, 1969
- radionuclide imaging of bone marrow (ab), Leonard Rosenthal and Raymonde Chartrand, 93: 989, 1969
- rapid sequential visualization of heart and great vessels in man using wide-field Anger scintillation camera: radioisotope-angiography following injection of technetium $^{99\text{m}}$ (ab), Dean T. Mason et al, 93: 988, 1969
- simple method of correcting $^{99\text{m}}\text{Mo}$ breakthrough from a $^{99\text{m}}\text{Tc}$ - $^{99\text{m}}\text{Mo}$ generator, Hing-Har Lo, Raymond A. Berke, and Majie S. Potsaid, 93: 1198, 1969
- two roles of scan in diagnosis of cerebral tumors (ab), R. G. Sephton and J. Barrie Morley, 93: 494, 1969
- value of gastroscintigraphy with technetium $^{99\text{m}}$ as routine diagnostic procedure (ab), R. Fridrich and G. Engelhart, 93: 494, 1969

RADIOTHERAPY

- See also Dosimetry; Radiocobalt; under diseases, organs, and regions, as Head, cancer; Neck, cancer
- automation of irradiation in external radiotherapy (ab), C. M. Lallane, 93: 987, 1969
- changing perspectives in oxygen breathing and radiation therapy (ab), Philip Rubin et al, 93: 1413, 1969
- clinical hyarboxic radiotherapy after five years, Orliss Wildermuth, Glenn A. Warner, and Raymond Marty, 93: 1149, 1969
- continuous intra-arterial infusion of tumors with vinblastine followed by radiotherapy (ab), J. C. Probert et al, 93: 987, 1969
- emergency radiotherapy (ab), Ahsen T. Ozarda and Hugh C. Sheffield, 93: 492, 1969
- fourth annual radiotherapy symposium: cancer of the head and neck: upper respiratory tract, Miami Cedars of Lebanon Hospital, 93: 1290, 1969
- hydrogen peroxide and radiotherapy: bubble formation in blood (ab), R. J. R. Johnson et al, 93: 242, 1969
- influence of contrast media and orthopedic nails on dose distribution in telecobalt and telecesium therapy (ab), Jean-M. Debois, 93: 242, 1969
- irradiation as immunosuppressive agent in organ transplantation, E. Richard King, Lucio S. DeGiorgi, R. Lewis Royster, James S. Wolf, and Seymour H. Levitt, 93: 297, 1969
- light analog system for radiotherapy planning (ab), Gerald S. Freedman and Paul N. Goodwin, 93: 1413, 1969
- metastasis following radiotherapy in hyperbaric oxygen, John C. Evans, 93: 1155, 1969
- practical application of dose fractionation to clinical radiotherapy (ed), Lucille A. Du Sault, 93: 182, 1969
- Queens Hospital Center courses, 93: 1206, 1969
- radiation treatment of malignant tumors in hypothermia (ab), Roland Brehm et al, 93: 1236, 1969
- relative biological effectiveness of fast neutrons for mammalian tissues, Stanley B. Field, 93: 915, 1969
- scattering foil device for high-energy electron-beam therapy, Yutaka Okumura, Toshiro Kitagawa, and Takashi Kitabatake, 93: 667, 1969
- single-dose radiation therapy in palliation of metastatic disease, Zia O. Vargha, Arvin S. Glicksman, and John Boland, 93: 1181, 1969
- techniques for tumor localization (ab), Martin Lingren, 93: 242, 1969
- therapeutic radiology: rationale, technic, results (bk rev), William T. Moss and William N. Brand, 93: 592, 1969

RADIOXENON

- measurement of ventilation-perfusion relationships using multiple crystal rectilinear scanner (ab), R. W. T. Haddon et al, 93: 743, 1969
- radioisotope and renal functional characterization of baboon kidney during normothermic, bloodless, isolated perfusion (ab), P. D. Van Heerden et al, 93: 244, 1969
- regional pulmonary function evaluation using xenon 133, a scintillation camera, and computer, Merle P. Loken, Jose R. Medina, James P. Lillehei, Phillippe L'Heureux, George S. Kush, and Richard V. Ebert, 93: 1261, 1969

RADIOYTTERRBIUM

- evaluation of ytterbium-169 diethylenetriaminepentaacetic acid as brain-scanning agent, David L. Gilday, Richard C. Reba, Fazle Hosain, Rosemary Longo, and Henry N. Wagner, Jr., 93: 1129, 1969
- visualization of renal structure and function with chelated radionuclides, Fazle Hosain, Richard C. Reba, and Henry N. Wagner, Jr., 93: 1135, 1969

RADIOYTTTRIUM

- stereotactic treatment of acromegaly (ab), Louis W. Conway et al, 93: 1238, 1969

RADIUM

- See also Radiations, Injurious Effects; Radiobiology; under organs and regions, as Jaws, cancer; Uterus, Cancer, therapy
- clinical application of computer dosimetry in interstitial radium therapy (ab), Joseph R. Castro et al, 93: 1414, 1969
- high dose-rate treatment moulds by afterloading technics (ab), C. A. F. Joslin et al, 93: 1236, 1969

RADIUS

- radiolunar synostosis, behavioral disturbance and XY chromosomes (ab), William W. Cleveland et al, 93: 976, 1969

- ^{125}I -labeled fibrinogen in diagnosis of deep-vein thrombosis and its correlation with phlebography (ab), D. Negus et al, 93: 744, 1969

femoral

- lymphatics of leg in deep venous thrombosis (ab), Omar Askar and K. A. Kassem, 93: 1223, 1969

- thromboembolism of leg following percutaneous catheterization of femoral artery for angiography: predisposing factors (ab), Bo Jacobsson and David Schlossman, 93: 1396, 1969

- thromboembolism of leg following percutaneous catheterization of femoral artery for angiography: symptoms and signs (ab), Bo Jacobsson et al, 93: 1395, 1969

portal

- portal hypertension in childhood (ab), K. W. Wilson et al, 93: 1222, 1969

renal

- epinephrine-assisted renal venography in renal vein thrombosis: report of 2 adolescents with nephrotic syndrome, Michael T. Gyepe, Donald T. Deslets, Robert K. Gray, and Roger M. Katz, 93: 793, 1969

- renal vein thrombosis in newborn infant of diabetic mother (ab), Göran Aurelius, 93: 980, 1969

tibial

- value of delayed filming in anterior tibial compartment syndrome secondary to trauma, Edward I. Greenbaum and B. O. Loughlin, 93: 373, 1969

vertebral

- thrombosis of vertebral artery from hyperextension to neck: case report (ab), Frederick A. Simeone and Herbert I. Goldberg, 93: 474, 1969

THURN, P. See SOBBE, A.**THYMIDINE**

- effects of local x irradiation on relative rates of incorporation of thymidine-methyl-5- ^3H and cytidine-5- ^3H into mitochondrial and nuclear DNA of Morris hepatoma 3924A, W. B. Looney, L. O. Chang, and H. P. Morris, 93: 1159, 1969

- radiosensitization of malignant brain tumors with bromouridine (thymidine analogue) (ab), Takao Hoshino and Keiji Sano, 93: 1407, 1969

- studies on stage radiosensitivity and DNA synthesis of chromosomes in cultured human cells (ab), Yung Sun Kang and Sang Dai Park, 93: 1239, 1969

- unscheduled incorporation of thymidine in ultraviolet-irradiated human lymphocytes (ab), Richard G. Evans and Amos Norman, 93: 498, 1969

THYMOMA. See Thymus, tumors; Tumors, thymoma**THYMUS**

- biphasic pattern of thymus regeneration after whole-body irradiation (ab), Akikazu Takada et al, 93: 1418, 1969

- effect of ionizing irradiation on oxidation of palmitate-1- ^{14}C by thymus and liver (ab), Constantinos J. Miras et al, 93: 498, 1969

- radiation effects on lymphopoiesis under continuous low dose rate exposure, Jacob I. Fabrikant, 93: 887, 1969

absence

- clinodactyly, camptodactyly, Kirner's deformity, and other crooked fingers, Andrew K. Poznanski, George B. Pratt, Gordon Manson, and Lester Weiss, 93: 573, 1969

cancer

- radiation tolerance of thoracic spinal cord (ab), Theodore L. Phillips and Franz Buschke, 93: 1411, 1969

effects of irradiation

- effect of ionizing irradiation on lipid biosynthesis by thymus and liver (ab), Constantinos J. Miras et al, 93: 247, 1969

- radiation-induced asymmetry and lymphoma of thymus in mice (ab), Bertil Järplid, 93: 249, 1969

tumors

- pitfalls in radiologic evaluation of mediastinal abnormalities (ab), Manuel Viamonte, Jr., and James R. LePage, 93: 719, 1969

- radiation-induced asymmetry and lymphoma of thymus in mice (ab), Bertil Järplid, 93: 249, 1969

THYROID**aberrant**

- mediastinal cysts and tumors (ab), Charles Marks et al, 93: 964, 1969

cancer

- thyroid carcinoma in atomic bomb survivors, Hiroshima and Nagasaki (ab), James W. Wood et al, 93: 992, 1969

- tumor scanning with ^{67}Ga citrate (ab), C. Lowell Edwards and R. L. Hayes, 93: 1238, 1969

cartilage. See Cartilage

THYROID—cont.

- effects of irradiation
 - early changes in fine structure of thyroid of midlethally irradiated dogs (ab), James N. Shively and Glenwood P. Epling, 93: 993, 1969
- hyperthyroidism**
 - when and how to use higher ^{131}I doses for hyperthyroidism (ab), Joel I. Hamburger and Sukhamoy Paul, 93: 989, 1969
- hypothyroidism**. See Cretinism
- physiology**
 - simplified dual-probe thyroid-uptake system, Joseph Mantel, Robert L. Ruskin, and Kenneth E. Corrigan, 93: 687, 1969
- radioisotope studies**
 - ^{125}I thyroid measurements with Ge(Li) detector (ab), V. J. Sodd et al, 93: 1415, 1969
 - measurement of uptake of $^{99\text{m}}\text{Tc}$ by thyroid (ab), A. C. de Garreta et al, 93: 742, 1969
 - simplified dual-probe thyroid-uptake system, Joseph Mantel, Robert L. Ruskin, and Kenneth E. Corrigan, 93: 687, 1969

TIBIA

- fractures**
 - value of delayed filming in anterior tibial compartment syndrome secondary to trauma, Edward I. Greenbaum and B. J. O'Loughlin, 93: 373, 1969

- ultrasonic cardiology: diagnostic ultrasound as aid to management of patients with pericardial effusion (ab), Harvey Feigenbaum, 93: 967, 1969
- ultrasonic diagnosis of subdural hematomas (ab), Jeffrey Rothman et al, 93: 1213, 1969

ULTRAVIOLET RAYS

- unscheduled incorporation of thymidine in ultraviolet-irradiated human lymphocytes (ab), Richard G. Evans and Amos Norman, 93: 498, 1969

UNITS OF RADIATION. See International Commission on Radiological Units and Measurements

URACHUS

- radiographic findings in anomalies of urachus (ab), Charles Ney and Richard M. Friedenber, 93: 737, 1969

URANO, MUNÉYASU. See **SUIT, HERMAN**

URETERS

See also Radiations, Injurious Effects; Radiobiology; Urinary Tract; Urography

abnormalities

- bifid renal pelvis and ureters: radiographic and cinefluorographic observations (ab), Neville Kaplan and Milton Elkin, 93: 1232, 1969

—left testicular vein varices simulating retroperitoneal lymph-node enlargement: case report, A. J. Gerlock, 93: 873, 1969

—reflux in duplicated ureters (ab), Arjan D. Amar, 93: 1231, 1969

calculi

—extravasation encountered during intravenous urography (ab), A. Brijis, 93: 737, 1969

cancer

—arteriographic diagnosis of primary and secondary tumors of ureter or ureter and renal pelvis, Erich K. Lang, 93: 799, 1969

—radiation therapy: valuable adjunct in management of carcinoma of ureter (ab), Luther W. Brady et al, 93: 740, 1969

—retroperitoneal gas study in assessment of neoplastic and constricting lesions involving ureter, Erich K. Lang, 93: 99, 1969

dilatation

—primary megaloureter, Lloyd K. Mark and Morris Moel, 93: 345, 1969

diverticula

—ureteral diverticulosis (ab), Shiv Navani et al, 93: 240, 1969

edema

—mucosal edema of ureter and renal pelvis, F. W. Wright, 93: 1309, 1969

fibrosis

—retroperitoneal gas study in assessment of neoplastic and constricting lesions involving ureter, Erich K. Lang, 93: 99, 1969

infection

—mucosal edema of ureter and renal pelvis, F. W. Wright, 93: 1309, 1969

mucosa

—mucosal relief pattern in urogram (ab), M. Cen and W. Dihlmann, 93: 240, 1969

pathology

—retroperitoneal gas study in assessment of neoplastic and constricting lesions involving ureter, Erich K. Lang, 93: 99, 1969

reflux

—absorption of contrast material from urinary tract during retrograde pyelography (ab), Bernard Lytton et al, 93: 979, 1969

—primary megaloureter, Lloyd K. Mark and Morris Moel, 93: 345, 1969

—reflux in duplicated ureters (ab), Arjan D. Amar, 93: 1231, 1969

—roentgen evaluation of urinary tract following treatment for vesicoureteral reflux, D. H. Altman, M. T. Lavastida, R. E. Litt, and L. A. Greenberg, 93: 593, 1969

—ureteral reflux in adults (ab), F. G. Klotz, 93: 982, 1969

roentgenography. See also Urography; other subheads under Ureters

—determination of transported uterine volume in dogs by cinerentgenologic analysis (ab), Raymond Gramiak and Paul Ross, 93: 240, 1969

tumors

—arteriographic diagnosis of primary and secondary tumors of ureter or ureter and renal pelvis, Erich K. Lang, 93: 799, 1969

—retroperitoneal gas study in assessment of neoplastic and constricting lesions involving ureter, Erich K. Lang, 93: 99, 1969

URETHRA

See also Urinary Tract; Urography

constriction. See Urethra, obstruction

obstruction

—urinary outflow resistance in boys with radiographic urethral constrictions, J. Whitaker and G. S. Johnston, 93: 126, 1969

roentgenography

—cinecystourethrography in patients with spinal cord injuries (ab), L. J. Peha et al, 93: 239, 1969

—lateral cystogram as aid to urologic diagnosis (ab), John A. Hutch and Charles E. Shopfner, 93: 737, 1969

URINARY TRACT

See also Bladder; Kidneys; Ureters; Urethra; Urography; etc.

disorders

—urinary outflow resistance in boys with radiographic urethral constrictions, J. Whitaker and G. S. Johnston, 93: 126, 1969

infections. See also Pyelonephritis

—acute pulmonary sensitivity to nitrofurantoin (ab), Robert W. Allen et al, 93: 714, 1969

—chronic nitrofurantoin pulmonary reaction: report of 5 cases (ab), E. C. Rosenow, III, et al, 93: 714, 1969

—long-term prognosis of nonobstructive urinary tract infection in infancy and childhood after advent of sulfonamides (ab), B. S. Lindblad and K. Ekengren, 93: 979, 1969

—ureteral reflux in adults (ab), P. G. Klotz, 93: 982, 1969

obstruction

—müllerian duct cyst: with report of case (ab), Daniel H. Neustein and Heinrich Schutte, 93: 1232, 1969

—unilateral leg edema, migraine, and methysergide: clinical presentation of retroperitoneal fibrosis (ab), Walter J. Farrell et al, 93: 1402, 1969

URINARY TRACT—cont.

physiology
—renal concentration of ^{131}I -rose bengal confusing interpretation of abdominal scans in liver disease (ab), Leonard M. Freeman et al, 93: 494, 1969

tumors
—lymphoma and urinary tract, Anthony F. Lalli, 93: 1051, 1969

ultrasonography
—two-dimensional ultrasonic investigations of urinary tract (ab), B. Damascelli et al, 93: 488, 1969

URINATION

See also Urinary Tract; etc.
—cineystourethrography in patients with spinal cord injuries (ab), L. J. Peha et al, 93: 239, 1969
—determination of transported uterine volume in dogs by cineoentgenologic analysis (ab), Raymond Gramiak and Paul Ross, 93: 240, 1969

URINE

See also Diuresis and Diuretics

bacteria in
—roentgen evaluation of bacteriuria associated with pregnancy, Joseph A. Hewitt, Marvin Weiner, Ofelia T. Monzon, and Leo G. Rigler, 93: 104, 1969

cystathionine

—radionuclear (^{75}Se) identification of tumor in children with neuroblastoma, G. J. D'Angio, M. Loken, and M. Nesbit, 615, 1969

UROGRAPHIN. See Cerebral Angiography, contrast media

UROGRAPHY

See also Pyelography; Urinary Tract; under names of urinary organs, as Kidneys, etc.
—course in roentgenology of urinary tract, Columbia University, 93: 454, 1969

—mucosal relief pattern in urogram (ab), M. Cen and W. Dählmann, 93: 240, 1969

—roentgen evaluation of urinary tract following treatment for vesicoureteral reflux, D. H. Altman, M. T. Lavastida, R. E. Litt, and L. A. Greenberg, 93: 593, 1969

—urology x-ray seminar, 93: 706, 1969
—working space for urological roentgen diagnosis (ab), L. Andrén et al, 93: 1233, 1969

complications

—extravasation encountered during intravenous urography (ab), A. Brijs, 93: 737, 1969

—renal function before and after urography and angiography with large doses of contrast media (ab), O. Bartley et al, 93: 980, 1969

contrast media

—absorption of contrast material from urinary tract during retrograde pyelography (ab), Bernard Lytton et al, 93: 979, 1969

—clinical comparative study of meglumine and sodium diatrizoate (Renografin-60) and meglumine diatrizoate (Hypaque-M-60) in pediatric urography (ab), M. Bernadette Nogrody et al, 93: 738, 1969

—delayed concentration and prolonged excretion of urographic contrast medium in first month of life (ab), M. Bernadette Nogrody and J. Scott Dunbar, 93: 239, 1969

technic

—acute urography: method for general use (ab), R. D. W. McLean et al, 93: 982, 1969

—clinical evaluation of drip infusion urography (ab), Ronald J. Ross and John F. Brodie, 93: 982, 1969

—delayed concentration and prolonged excretion of urographic contrast medium in first month of life (ab), M. Bernadette Nogrody and J. Scott Dunbar, 93: 239, 1969

—lateral cystogram as aid to urologic diagnosis (ab), John A. Hatch and Charles E. Shopfner, 93: 737, 1969

—retained needle urography and cholangiography, Paul W. Rowe, 93: 520, 1969

UROLOGY. See Pyelography; Urinary Tract; Urography; under names of individual urinary organs; etc.

UTERUS

See also Pelvis

blood supply

—uterine phlebography (ab), Edmundo Murray and Mario R. Comparato, 93: 735, 1969

cancer. See Uterus, Cancer

roentgenography
